## Lock down

I have been locked down,

My school has been locked down,

My town has been locked down,

My world has been locked down.

## Fortunately

I have lots of games at home,

I have a nice view from my window,

I have my mummy and daddy to play with.

## However

I am sad

I feel bored

I feel lonely

## I think

About my friends,

About how much I miss them,

About life before lockdown.

coronavirus and protest around the world.

I am grateful that my life is full of love.
